Its OkayBy bromley,joshuaThis product was okay but it's more of a pamphlet then a book and is about the size of a brochure that you get at the doctors office. The methods of pick pocketing in the book are not very detailed and experience in slight of hand is required to trully appreciate the technique. There are no pictures which would have helped. It is probably better to watch YOUTUBE videos or try

some of the other books to help. The book took me five minutes to read cover to cover.

A treatise on the fundamental principle, theory, and practice of picking pockets for magicians. For entertainment purposes only! Removing objects from an audience member is a staple in magic acts, and here magician Eddie Joseph provides the basics of various pickpocket maneuvers (coat pockets, hip pockets, watches, and more). Practice, practice, and don't get caught . . .
