Paul Kleinman : A Ton of Crap: The Bathroom Book That's Filled to the Brim with Knowledge before purchasing it in order to gage whether or not it would be worth my time, and all praised A Ton of Crap: The Bathroom Book That's Filled to the Brim with Knowledge:

0 of 0 people found the following review helpful. Five StarsBy thomas hooverThis book is choc full of usefull (and useless) info. Expand your mind, while pop exits your behind.0 of 0 people found the following review helpful. Lots

of good information!By Olive OylNo wasted time here! Every minute counts when we need to stay informed! I'm not so sure I would want to order a "used" copy, if, perchance, the book was, indeed, a bathroom accessory!0 of 0 people found the following review helpful. Four StarsBy SarlydohIt was a gift but I think the person liked it.

It's time to start taking toilet time a little more seriously. (Well, as seriously as you can with your pants around your ankles.) What's inside is a digestible re-education in everything you probably learned, but most likely forgot because you have too much crap to remember. Don't worry though; the way the information's presented, the learning won't be too rough.During every visit, you'll be schooled on five academic subjects: History, Language Arts, Math, Science, and Foreign Language. Each subject is broken down into topics, with each topic split into six mini-lessons, and finished off with a quick quiz. Think of each restroom trip as a day of middle school crammed into one bathroom break.Now rather than idle away as you do your business, you'll be treated to a first-class education that finishes when you flushand picks up again when you sit back down.

About the AuthorPaul Kleinman learned a ton of crap from the University of Wisconsin. He now expands his knowledge base as a freelance writer, researching and writing about a ton of different crap every day.
