This collection of organ music is a lovely addition to my church repertoire. I only wish publishers of music books would bind everything on rings.

This has been my best purchase in organ books for a while. I suppose it could be done on manuals alone if that is your need but most of the selections have "natural" pedal lines. This is an excellent variety of compositions by a good variety of composers. Many can be learned easily in a week. Some may take a little more time. Some are quite familiar in the repertoire, many are new to me. But they are all usable. The print is good. I plan to get my money's worth out of this book.

For organists who prefer to play manuals without pedals, this extensive collection provides a wealth of works. Highlights include J. S. Bach's Partite Diverse, "O Gott, du frommer Gott!"; Best's Prelude on a Chorale by Thomas Tallis; Buxtehude's Fugue in C; the charming Four Pieces for Flute Clocks, written by Haydn for his era's popular musical clocks; Mozart's "Fantasie de Salon," based on four themes from The Magic Flute; and Pachelbel's beloved Canon in D. Other featured composers include Elgar, Dupr, Beethoven, Frescobaldi, Handel, Liszt, Couperin, and Franck. An informative selection of Notes on the Music provides background for each piece.
