Alfred Series starts off rough and a bit too challenging for my tastes. But the Levels 5 and 6 are so good! My students have such a great challenge with the later end of this series with the solid assortment of music. So much variety, classical, obscure romantic and early 1900s works, hymns, patriotic, original fun works by the book authors, it's all here. I still end up playing my favorites from these books and bet it'll be a great choice for all teachers and students.0 of 0 people found the following review helpful. New Piano BookBy AshleyThis book arrived without any problems, and it had no signs of wear. It looked brand new. The songs in this book start off simple and progressively get harder.0 of 0 people found the following review helpful. Five StarsBy T. KeeThese are great books for learning piano
