ContemporaryBy dgal1234I was looking for something more along the lines of traditional Hymns, this is a bit too contemporary for me.Good book, just not my style :)2 of 2 people found the following review helpful. Disappointing arrangementsBy RedbirdI bought this book after a moderately good experience with the Praise Hits 1A book. However, I found my experience with this book much less satisfactory. Both books are leveled to match where you are in the Alfred books, but this one had poor arrangements. Both books have an

adult accompaniment, but while the 1A version sounded like the actual song you were supposed to be playing without the accompaniment, this one sounds like the accompaniment to the accompaniment.0 of 0 people found the following review helpful. Five StarsBy JLVery good seller, came as describe
