By SarahMy daughter loves playing the songs in this book. It has lots of ones she is already familiar with, such as It's a Small World, which makes it so she actually wants to practice piano. I only wish the book had more songs.

By J. R. IversonI am a fan of the Alfred method and love the books for teaching my four beginner piano students. I was excited to see some alternate options for the solo/recital book, including this "Top Hits" book. I currently have two students using this book, and they really seem to love it. I think it makes a difference for kids to be able to play tunes they know and enjoy. I would say that most of the songs were accessible to my 7-8 year old students, although a few are not as appealing to them ("My Heart Will Go On," for one). My only complaint about the book is that it seems a little difficult compared to other books at this level. Many of the songs are played in the middle C position, which my students aren't as familiar with, and then many of the songs jump positions several times, which is something these kids aren't used to doing at this level. It doesn't correlate with the other 4 books as far as concepts go, although it does seem like the songs get harder as you progress through the book. Overall, it's fun, but I wouldn't use it for a struggling piano student. The very gifted ones will be fine, or perhaps when they are over half-way through the Lesson books at this level, they will be fine. The kids really love it, and when practicing is fun, it makes a big difference. They are more willing to work hard on the songs because they enjoy them. Really, the challenge is probably good for them!
