BradyGames : Aliens: Colonial Marines Official Strategy Guide (Bradygames Strategy Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Aliens: Colonial Marines Official Strategy Guide (Bradygames Strategy Guides):

7 of 7 people found the following review helpful. Overall a decent book for a not so great gameBy That Review Guyto

start:the book has Excellent maps that show the locationsof all the collectables like dog tags and legendary weapons.they give complete descriptions of all the regular weapons AND the legendary weaponsall the MP marine loadouts are also listed including upgrades and weaponattachments. all xeno types are also explained.the full singleplayer is well documented and has excellent picturesthe item and weapon lists are complete though short and brief.if you're a big fan of the aliens game then this book will proveinvaluable since it will be a great help finding all thosehidden collectables and legendary weapons. otherwise if you'drather find these on your own the book really isn't a must haveafter reading it to be truthful it really didn't tell me much Ididn't already know (other then collectable locations)even the info for Multiplayer isn't a must have. but it is niceknowing all the upgrades.Page quality: they're glossy hi-res pictures and the maps are flawless (5 stars)Item lists: could provide more info otherwise good enough (4 stars)Ease of use: pretty simple guide to use and Very Easy to follow 5 starsOverall: like I said above if you bought the gameand are enjoying it to the point you want to complete100% of the game then this guide is a must! otherwise the wiki is fine.1 of 1 people found the following review helpful. Great Companion To The GameBy DagbaughAlthough we haven't had to crack it open a whole lot while actually playing the game, it's a great reference for no other purpose than to browse the layouts, learn more about the characters, the weapon specs (awesome, by the way) and all sorts of detail regarding the aliens encountered in the game. There's a lot of things we've missed along the way through the game that we'll go back to after finishing the last chapter (plenty of dog tags, classic weapons, weapon upgrades, etc.). Worth the price, especially if you're a fan of Alien.0 of 0 people found the following review helpful. Strategy GuideBy Robino!My nephew loves all things Aliens and video games, but he does not love books...unless it's about either one of these 2 things. He studied this book - loved the pictures and information. Beautifully printed with great colors and a wonderful binder that upholds against boy hands and multiple read-thrus. Plus smooth pages allow for soda to be wiped off without ruining pages :)

BradyGames Aliens: Colonial Marines Official Strategy Guide includes the following: Got Maps? Only if youve got this guide. Gearbox Studios custom rendered exclusive maps for every mission. Theyre awesome and you wont find them anywhere but herenot even ingame. The Campaign - We navigate you through every mission, with tactics for playing single-player or cooperatively.
