**Jay Johnson : All About the Continents: Extra Large Print Word Search Puzzles** before purchasing it in order to gage whether or not it would be worth my time, and all praised All About the Continents: Extra Large Print Word Search Puzzles:

Indeed, this puzzle book has been designed to address issues of the kind of embarrassment most people face on national television when a reporter suddenly walks up to them to ask a seemingly simple question like where is Nigeria? In fact, I once saw a senior citizen being asked that exact same question on TV sometimes ago and his answer was shocking. So, you are not a geography major, well it doesnt really matter. Yes, once you make up your mind to know the world around you, then you become better off as no knowledge is ever loss and we learn daily consciously or unconsciously. My point is that this puzzle book is designed to help you know the world around you without leaving

your comfort zone. This word search puzzle is designed for both young and old as it will help you to get acquainted with the location of most countries of the world as well as learn about countries you never knew existed in this world we live in. Whats more? All these learning is done in a fun and relaxed way such that it sticks and you will never be embarrassed the next time a reporter walks up to you with such questions. All information in this book is from United Nations (U.N) source. So, relax and begin to explore the world in the comfort of your home. You will also find answers at the back pages of this book, if you need any form of assistance. Thank you for your time and interest in this continental word search puzzle book.
