I was hoping the "puzzles" it mentioned were in some way made for a budding architect, but it is not so. It does have a page in the back for a to-do

list. This, however, does not make it at all an appropriate gift for an architect (or a young boy who hopes to be one some day). All in all, I was pretty peeved with this book and thought it was poorly described. 0 of 0 people found the following review helpful. Five Stars
