It's A JOURNAL with random header type puzzles. 0 of 0 people found the following review

helpful. Fun gift

I thought the puzzles would somehow relate to an engineer, so one less star, but they are just puzzles. I imagine that in the large variety of books they sell, the puzzles are pretty much the same. But the book is cute, with lines for notes, and was well received.

Totally perfect. My fiancée is an engineer and he is always looking for a good notebook. This is great because it lets him take his notes and lists and has little puzzles for him to play with. Couldn't have been more perfect. Definitely for an engineer!
