Plus It spiral which I considered as huge advantage and I even would pay extra for having it spiral instead of binder, as it sit well on your piano stand, with out you fighting the book to keep open. The fingering are great and precise. Personally the first thing I am always looking

when I'm buying the scores book is if it comes with Alfred edition. The pieces are also graded from low intermediate to highly advance so you can follow the right level or at least know what level of player you are if it easy for you. Just fantastic. You will be satisfied.0 of 0 people found the following review helpful. Five StarsBy Renpo WuGood quality and service.

A complete and informative performance-oriented edition of this sparkling Mendelssohn work. Detailed performance and background notes are also provided. A 'must' for all your serious piano student-customers!
