It also impressed me that the piano book is plastic-covered, making it long-lasting. The print is of very good quality and the fingerings and bowings for the violin part are nice, some changes need to be done but just to make your own performing. Overall, I'm very happy with this. 5 of 5 people found the following review helpful. Excellent. By JR Meyers Exactly what we needed. This is for the advanced or professional and includes the piano as well as the violin parts. Very pleased. 2 of 2 people found the following review

helpful. A Gift for a MasterBy Joel MinerI gave it to my cousin's boyfriend for Christmas because he is great at playing the violin. I thought he would sound great playing Vivaldi. He was so amazed by it, he was looking through it after opening it.
