PaganJust ordered one of these because my original copy got lost to time and multiple moves =(It's great! I grew up singing these from the book with my mother and had the original cassette tape (which was not included with this purchase, nor a cd). In agreeing with some of the other reviewers, the book and recording is a little lack luster in pronunciation and translation, but this doesn't bother me much if only because I learned them this way as a child and Spanish was not my first language. The songs are catchy and sweet, and as long as they keep being made I'll make sure each of my nieces and nephews gets one. Very sentimental and a nice gift to pass down!0 of 0 people found the following review helpful. Nice songsBy CustomerI wish it had a CD since, I am not familiar with all the melodies, but I try to sing with y baby and just loves it any way.0 of 0 people found the following review helpful. Nice book of songs and games from Latin AmericaBy silvia eliasNice book of songs and games from Latin America. The variations in words from different countries to how I remembered the songs was interesting.

A collection of traditional Latin American songs and rhymes, in Spanish and English, with the music included.
