A guide that raises the profile of the gameBy AzzA424For most visiting this page, you will either own or have heard of the previous three Collector's Edition guides that accompanied the earlier games in the series. That being the case or not, all of you should rest assured that once again, this product is THE essential companion to the game - perhaps more so than ever before...Without beating around the bush, Assassin's Creed 3 was released amid criticism and fan disappointment. Love it or hate it though, many of the game's

original issues have since been patched at the time of me writing this, but despite this, the guide nonetheless provides unprecedented guidance to an otherwise muddled experience. It seems as though, with Assassin's Creed 3, any good idea on the table found its way into the game, for better or worse; resulting in an incredibly overwhelming amount of side missions and diversions, many of which are not formally introduced. This is where the guide comes in - with quality to match its preceeded reputation, this guide provides a much needed structure with which to tackle the huge task list, covering full-sync objectives, bonus quests, weapons and armor details, DLC coverage etc. In addition, the guide also contains a story analysis of all games in the Assassin's Creed saga, tackling answers to tough questions through developer insight, and providing a history vs. story section which supports the vast Assassin's Creed lore, and recognises just how closely this game explores real-life history. This is all neatly packed in a spoiler-labelled section at the end of the guide, whilst the aforementioned areas of the guide remain entirely spoiler-free. To reiterate, this game guide gives fans much-needed direction through the winding, underrated narrative in Ubisoft's latest 'Creed, along with some fantastic, appreciated extras; and whilst previous guides are worthy of their highest praise, this one perhaps deserves a little more, for raising the quality and enjoyment of the entire game. Wholly recommended. 0 of 0 people found the following review helpful. A GAMMER'S MUST HAVE By doc2A NECESSARY COMPLETE GUIDE FOR ALL MY ASSASSIN CREED XBOX ONE GAMES. 0 of 0 people found the following review helpful. This Map Will Blow Your Mind By SolarRaistlinZ The largest game companion yet for an assassin's creed game, this goes back to the matte white and glossy color of the second games guide (The first by piggyback). The maps that come with these guides are my favorite parts, and this one did not disappoint. Its printed on yellow papyrus looking paper, and gives you a centuries old feeling of a treasure map. I hope the trend in quality maps continues with open world games like this and GTA V. Skyrim's map that comes with the guide for the legendary edition isnt as styleized but there is a lot more content to pack into it. Either way, all these open world games have waaaaay too much stuff to do in them. And that is awesome. These are the reason its gonna take me 2 years after launch to dive into xbox or PS4
