**From Alfred Music : At the Piano with J. S. Bach** before purchasing it in order to gage whether or not it would be worth my time, and all praised At the Piano with J. S. Bach:

0 of 0 people found the following review helpful. My bad for not reading the content carefullyBy Joyce YI actually bought this book by mistake. I got it for prelude and fugue #16 and realized it only has prelude #16. My bad for not reading the content carefully. The pieces in there are selected pieces from JS Bach's works, the preludes and fugues are not paired up in there. If you need a particular piece, look at its content to make sure the book has it. The book opens flat to be placed on the piano. The spacing on the music allows my daughter and her piano teacher to make notes on it for piano study. Good quality book overall.0 of 1 people found the following review helpful. BachBy mimstratIt's Bach, what else can you say? Nice arrangements.

A wonderful edition aimed at helping the pianist perform Bach's music in a stylistically acceptable manner. It includes suggested articulation, dynamic, and fingering indications. Also included is history on Bach as a performer and a teacher to aid in better understanding Bach's works and styles.
