Samuel J. Sauls, Craig A. Stark : Audio Production Worktext: Concepts, Techniques, and Equipment before purchasing it in order to gage whether or not it would be worth my time, and all praised Audio Production Worktext: Concepts, Techniques, and Equipment:

0 of 1 people found the following review helpful. Five StarsBy L.BillingsleyPerfect. On time. Came as described!
New.0 of 3 people found the following review helpful. Five StarsBy SahraI ordered this book, I don't get yet so can you told me what time u sent me

Expanded to emphasize the impact media convergence has had on radio production, *Audio Production Worktext, Seventh Edition* provides a robust introduction to the modern radio production studio, the equipment found in that studio, and the basic techniques needed to accomplish radio production work, whether in studio or online. The new edition emphasizes the impact of media convergence, stressing the theme that audio content is now utilized on multiple platforms, while still providing a thorough introduction to the modern radio production studio, equipment, and techniques. Key features: Increased coverage of audio for video and film applications throughout the book, emphasizing the multiplatform focus of the industry Updates to technical information about equipment as well as new projects and student exercises throughout the book Worktext format tailored for both students and teachers features self-study questions, hands-on projects, an appendix on analog audio equipment for useful background information, and an updated Glossary Companion website provides interactive demonstrations of key audio techniques and concepts, quizzes for each chapter, and helpful links New instructor website features PowerPoints, a test bank, and a sample syllabus

About the Author Samuel J. Sauls, Ph.D., is an Associate Professor in the Department of Radio, Television and Film at the University of North Texas, where he has been on the faculty since 1984. From 1984 to 1994 he was the Station Manager of the University radio station, KNTU-FM. He has a combined total of 15 years of experience in commercial and noncommercial radio, and also worked for 4 years in Saudi Arabia and 2 years in Germany. He serves on the Broadcast Education Association board of directors and is a Past President of the Texas Association of Broadcast Educators. His first book, *The Culture of American College Radio*, was published in 2000. At UNT, he is the RTVF Director of Graduate Studies. Craig A. Stark, Ph.D., is an Associate Professor of Communications at Susquehanna University, where he teaches courses in audio production, video production, mass media history, and critical issues in emerging media. He also serves as the faculty advisor for the schools radio station, WQSU FM. He has worked and taught in educational broadcasting for almost twenty years. Prior to entering the academic field he worked in commercial radio and video production as an on-air announcer, news and sports reporter, and broadcast engineer. He is active with several professional and academic organizations including the Broadcast Educators Association and is the author of several articles related to media studies.
