Serena Lee Ng : Baccarat Fortune Bookie Winning Thrills-4 before purchasing it in order to gage whether or not it would be worth my time, and all praised Baccarat Fortune Bookie Winning Thrills-4:

1 of 1 people found the following review helpful. Zero Star for Baccarat Fortune Bookie Winning Thrills-4 By nelson hem This is a terrible book in the market. It is a waste of paper. The author wrote the book had a very little clue of the logic behind the game of baccarat. The only person who understands the book may be the author himself but not the baccarat player in the field. Any kid may play the game better than this book The author wrote this type of book (1-V)

just to want to make money. I guarantee any buyer in the world will be disappointed with any of these books. I do not recommend anyone buying this book. It is a waste of money. The author used numerical data between Banker and Player to approach any bet. This static or statistic attempt is logically false because the interaction between banker and player from beginning of shoe to the end is very dynamic but not static. Therefore using numerical data to pinpoint any bet is a pipe dream and your bankroll will eventually suffer a complete disaster. Baccarat is a system game. We must design a system to beat this system. I would rate this book Winning Thrills-4 a zero star.

The purpose of this book is to give you details of how to wait for a short run Banker or Player; then capture and win 50% of your bankroll in one single shoe at any potential table. This Winning Thrills-4 is the sequel of Baccarat Fortune Bookie-Winning Method-2 and Baccarat Fortune Bookie-Winning Method-3. You can use each book independently or you can combine these three books' knowledge and benefit a 100%. If you were an experienced Baccarat player; you already knew what I said/provided inside these three books were not fiction nor made up; as they were the mirror results of many past collected data. This book would help you keep your bankroll last much longer and most likely profit some. This Winning Thrills-4 would provide you with more detail information of how to predict when and how the coming hands would or would not end with less than 3 4 runs in a row; this knowledge definitely would provide you a better winning chance. This Winning Thrills-4 would also provide you with warning signs that certain shoes that just not playable or profitable; here to show you how to read the trending to increase your winning profit. We are here to illustrate to win 50% of your bankroll in one single shoe; we here start from the beginning of the shoe. You can target and win 50% of your bankroll in one single shoe starting anywhere of the shoe; once you learned and familiar with the coming trend. Do not bet on every single hand in Baccarat. In order to gain an advantage in winning Baccarat; always bet on one side only. Baccarat is 50/50 chance game; if you bet on one side only there should be less chance that you would lose. Baccarat has the highest payout odds; if you could not win Baccarat; it is all human inexperience; superego mistakes or fatigue. Check your old gambling data and compare to my illustrations in my books and you would agree with me. This book was written for you to use at the land based casino only. This book should not be used at any online gambling.

About the Author While many have talent of playing football, hockey, baseball or basketball; Serena Lee Ng has an interest and talent of finding short cut to winning at casinos table game. Her first book Roulette Fortune Bookie was published in 2003 and was welcome and praised by many. As of the year 2014 her first book Roulette Fortune Bookie still shelved at UNLV Universitys library and as well shelved at a few of Las Vegas Clark Countys public libraries. Since then she was more into the Baccarat gaming and had since wrote a few books about Baccarat. This Baccarat Fortune Bookie Winning Thrills 4 was her most current book; and was completed in May/2014. According to the author; this book was the one she most proud of. Serena Lee Ng is a very serious person. None of the book she wrote was fiction; all her books were research based books. Her English may not be perfect; but her knowledge and the accuracy of Baccarat is amazing!
