**From Kalmus Classic Edition : Bach Complete Organ Works, Vol. 2 (Kalmus Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bach Complete Organ Works, Vol. 2 (Kalmus Edition):

0 of 0 people found the following review helpful. Decent Edition By John Deahl The Kalmus editions are reproductions of the 19th century Bach Gesellschaft edition. Because of these, there are some (not many) note errors, the ordering of pieces is not up-to-date, and there is some alto clef. However, if you are looking for an inexpensive edition of the Bach organ works that is fairly decent I would highly recommend this edition.

Nine Preludes and Fugues, Fantasia and Fugue in G Minor. The comb binding creates a lay-flat book that is perfect for study and performance.
