Johann Sebastian Bach : Bach Complete Organ Works, Vol. 3 (Kalmus Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bach Complete Organ Works, Vol. 3 (Kalmus Edition):

Because of these, there are some (not many) note errors, the ordering of pieces is not up-to-date, and there is some alto clef. However, if you are looking for an inexpensive edition of the Bach organ works that is fairly decent I would highly recommend this edition. 0 of 0 people found the following review helpful. Very good By Justin Tayon There were a few places where the pages had creased during printing, but not enough to be of any concern. Will consider getting another volume.

SIX Preludes and Fugues (Incl. St. Ann's Fugue), Three Toccatas and Fugues, Fantasy and Fugue. The comb binding creates a lay-flat book that is perfect for study and performance.
