**From Kalmus Classic Edition : Bach Complete Organ Works, Vol. 9 (Kalmus Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bach Complete Organ Works, Vol. 9 (Kalmus Edition):

0 of 0 people found the following review helpful. Decent edition By John Deahl The Kalmus editions are reproductions of the 19th century Bach Gesellschaft edition. Because of these, there are some (not many) note errors, the ordering of pieces is not up-to-date, and there is some alto clef. However, if you are looking for an inexpensive edition of the Bach organ works that is fairly decent I would highly recommend this edition. 2 of 3 people found the following review helpful. Bach Complete Organ Works (Volume 9) Johann Sebastian Bach By Daniel Ponder This is a very unique book. The layout of the music makes it seem as if it has 2 books in One! ie. worth the money. The first half consists of the difficult Fantasia and Fugue in a-minor, a fugue in G-Major. The strange "Little Harmonic Labyrinth" (BACH'S ONLY!) a non-tonal piece. The frolicking Fuga et G-Major "JIG", Fugue in D-Major. A concerto in G-Major (571) and the one in Es (E-flat) Major. Trios in G, c, and G. Plus the Delightful Aria in F-Major. The "SECOND BOOK" consists of 18 questionable chorale preludes by Bach.

Little Harmonic Labyrinth, 18 Chorale Preludes and Several Fugues and Short Trios. The comb binding creates a lay-flat book that is perfect for study and performance.
