**Johann Sebastian Bach : Bach: English French Suites** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bach: English French Suites:

15 of 16 people found the following review helpful. Not Piano Friendly By Steven Kruger Though this book (and the series from which it comes) seem editorially sound, they are totally useless as working piano scores. They are small hardback books with print so small they would only be good for notation. 6 of 6 people found the following review helpful. Misleading review from Steven Kruger By Ivan Btora This is a tiny hardcover book which is not designed for playing purposes. It says Music Scores in the title, which makes it pretty clear. The English and French Suites are also available in large formats from Knemann Music. Of course, you can also buy this book and make enlarged photocopies. Knemann Music publishes complete editions from composers, including Bach, and these can only be

regarded as positive comparing the outlook and price with other editions. 1 of 1 people found the following review helpful. The ACTUAL Scores are a great deal though By L. Connally I totally accept what the other reviewers say about this 'study score' listed here. But wanted to mention though, that the REAL Koenemann Edition Scores are a great deal for a well-printed urtext score. ~US\$10 vs ~US\$40 for a Henle Verlag Urtext edition. Just FYI.
