The CD is also very helpful, however, it only plays the piano or harpsichord part, and not the flute part. Good for sight-reading, but not if you want to hear the flute part.4 of 4 people found the following review helpful. Great BuyBy FancyThis is a nice collection of flute solos and I like that each one has a choice of piano or

harpsichord accompaniment on the CD. They vary from intermediate to difficult. It would have been better to have a demo track to listen to as I find that easier to learn with. However it's a great buy! 3 of 3 people found the following review helpful. Slower Movements From Bach Flute Sonatas By I C S This is a great book for recitals from high school through to college. If you like Bach and want the slower movements from some of his Flute Sonatas along with a great accompaniment CD this is the book.
