**Helen McCarthy, JONATHAN CLEMENTS : The Erotic Anime Movie Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Erotic Anime Movie Guide:

0 of 0 people found the following review helpful. Five StarsBy lord of infiniteIt was exactly how it was described and the shipping was was also accurate7 of 11 people found the following review helpful. The real history of erotic anime...By Michael Valdivielso191 pages of a serious study of the anime's history in Japan and impact of ... anime in the western world. The book deals with its roots, how much of it is made in Japan (when compared to other categories), the many types (... , horror, ... , so on), the characters, anime games and even how translations, from Japanese to English, sometimes made a normal anime into a ... version that will increase its selling power in the

English and American market BUT destroy the story line. It also deals with the media's reactions to anime and how marketing strategies make a cartoon worse than it started out with. For example, ... boys are more likely to buy a cartoon with a adult rating than one for family viewing. Also the book shows how most ... anime is bought up by mainstream video/DVD viewers NOT anime fans (who are more likely going to want the Japanese, and therefore pre-eroticized, version of the story). Contains adult material, so only for 18 years or older AND only for the serious reader. 16 of 20 people found the following review helpful. The Humdrum Guide to XXX Anime By Marc Ruby While this book provides detailed coverage of much of the dark side of anime, it is marred by very lackluster writing and a dearth of illustration. The writers shift back and forth from a dry academic philosophizing which sometimes borders on apologising for Japanese tastes to an equally dry reporting of film contents. This should be a fascinating subject. The Japanese have focused considerable writing, illustrative and musical talent on sexually oriented anime, and this strange little book seems to want to downplay all of that. Hopefully someone else will be inspired to create the book this should have been.

In the wake of the popular "The Anime Movie Guide" comes the definitive handbook of Japanese animation's most fascinating and controversial sub-genre--erotic anime. Bibliography. Filmography. Glossary of Japanese terms. 64 illustrations.
