Good bookBy Dirk WinstonI'm an Oz film fan and I thought I knew almost everything there is to know about the film but he surprised me with many facts I'd never read before. It's a slim book but well worth it if you're an oz fan or collector.0 of 0 people found the following review helpful. "The Essential Wizard of Oz" is brimming with amazing true stories, corrected myths, and particular particulars about the most-watched movie in film history more than one billion people have seen MGMs 1939 classic. The book is not meant to provide a comprehensive nor complete academic reference, but rather an accessible distillation, a delightful confection in its own right, about a film that is one of the most beloved pieces of motion picture art and one that has resonated across three-quarters of a century.
