praised *The Extraordinary Image: Orson Welles, Alfred Hitchcock, Stanley Kubrick, and the Reimagining of Cinema:*

Welles. Hitchcock. Kubrick. These names appear on nearly every list of the all-time greatest filmmakers. But what makes these directors so great? Despite their very different themes and sensibilities, is there a common genius that unites them and elevates their work into the realm of the sublime?

"Robert P. Kolker takes readers on a fascinating journey into the lives and work of these three directors, examining the unique visual themes and finding the common threads of genius in their cinematic worlds."
