Ronald Bergan : The Film Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Film Book:

5 of 5 people found the following review helpful. Absolutely love it! By Pannita It came in a film canister like tin box and the book cover is a photo of vintage film. The contents of the book are divided into 6 sections, as the following: 1. The Story of Film: The history of film since 1895 to present and timeline 2. How Movies are Made: Pre-production, Production and Post-production 3. Movie Genres: Western, Musical, Comedy, Action, Animation etc. 4. World Film: International movies from around the world, such as India's Bollywood 5. A-Z of Directors: Profiles of 100 of the world's best movie directors, such as Alfred Hitchcock 6. Top 100 Movies: The most influential movies of all time, such as King Kong, Gone with the Wind etc. Btw, the contents are previously published in Eyewitness Companions: Film. If you already have that book, you don't have to get this one because it's basically the same with some new photos. Anyway, this book is recommended for film lovers and DK book collectors! 8 of 8 people found the following review helpful. Excellent book. By JC It comes in a clever and protective metal box, as if it actually contained a reel of film. This used book was in pristine condition, better than the seller described. I was (again) disappointed it did not

contain more of the classic films being shown on TCM and AMC, Having purchased several books of this type, I realize no one book can possibly encompass all the films we may want to find. This book is an excellent addition to those I have of this genre. Gaps within each book are filled in by others. I've learned not to expect one book to have it all, and am pleased to have several excellent books to reference. This is one of them. 0 of 0 people found the following review helpful. ... new and item arrived in two days (prime) in perfect condition. The book itself is beautiful By Coffee Expert Purchased the "Film Book" new and item arrived in two days (prime) in perfect condition. The book itself is beautiful...not too in depth for the novice film fan, but contains beautiful color images, and tracks most all the notable films in cinematic history. Plus, the mock, film tin container is a neat touch - an essential for any cinephile's library shelf.

A comprehensive, fun-to-browse, and easy-to-use source of everything you want to know about the movies and the people behind them, The Film Book is a unique treasure trove of a guide that will appeal to anyone who loves movies. From the history of the art form to techniques, and then the films themselves, The Film Book provides an overview of cinematic styles and genres; the industry's greatest and most influential directors, and their key works; as well as looking at filmmaking around the world, from Hollywood to Bollywood.
