Long overdue tribute to Grable's input to the cinemaBy A CustomerI was very happy to purchase this tribute to the film career on one of Hollywood's most durable musical comedy actresses. Long overdue, but well worth the wait. Masses of photographs, some of which I had never seen before, and a well catalogued screen career - including long-forgotten shorts she made under the name of Frances Dean. The reviews on her many films provided an insight into the golden years of Hollywood. An excellent addition to the "Films of..." series.
