It's pocket-sized so aside from your kindle, or smartphone, this is an easy carry-around. However, the font is SO SMALL even with my glasses on. It was \$10 used but it cost just as much to ship it,

so I ended up paying almost \$20.00. I think the smartphone with kindle app, would have been better. It's smaller and at least I could re-size the font. The only reason I'm not refunding is b/c of shipping .Honestly the website was just as informative. Wanted to support the filmmakers but next time they need a "larger book format" or make the font bigger.0 of 0 people found the following review helpful. Write a script. Get a camera. Hire Actors. Shoot a movie.By Jason PeckFantastic book. My third book owned from this author. Go and buy it. The most up to date of the three. Handily fits in your pocket on set. I kept it handy on my first feature, not just as a reference but also as a bit of inspiration when needed.0 of 0 people found the following review helpful.
