From the Heart, the story of a FamilyBy NancyAdairBJoel was a high school classmate and when he shared on social media that he had published a book I was curious to read it. Since I haven't seen him since 1970, it was a way of 'catching up'! Subtitled, Life, Laughter, and a Little Miracle, this project is Joel's way of sharing the joy and love he has for his family and the philosophy and faith that has made their life a success.Like Joel, we had a child late in life, and like his daughter, our son was spoiled and the center of our family.

When Joel's work meant a move he was able to choose a home that was best for their daughter. As his daughter's love of horses grew, their family homes shrunk, finally settling on an Up North 'ranch'! Joel gets preachy in this book, touting the values that he cherishes. So, if you have trouble with 4-H, a faith in God, a love of family, and 'Safety First!', you had better skip this book. For the rest of us, you will want to get to know Joel and Chrissy and Carol, Blossom the horse, and a host of other animals. Including the Guinea Pig in the Freezer. 0 of 0 people found the following review helpful. Nicely done and comically shared by a terrific dad! By Mary Lou Eberly Joel is a man of many talents and this was a great beginning to a literary second? Now a weekly columnist in the Gladwin County Record I look forward to seeing more of Joel's writings. Congratulations on the book, the column and from what I understand living a healthy life style. Good for everyone I would say! This publication has become my incentive to keep working on the writings on my own life. I know someone from a small town can do it! Joel did! 0 of 0 people found the following review helpful. Loved "The Guinea Pig In The Freezer"! By Kelley Phillips There are few things as pure and wonderful as a father's love for his daughter. Joel Vernier's book, "The Guinea Pig In The Freezer", is a delightful, humorous, heartfelt tribute, not only to his daughter, but to the life he's lived as a son, husband, father, and, so it would seem, a bit of a zoo keeper! I definitely recommend this book for anyone looking for an uplifting witness of love, joy, life, and faith!
