It's great if you're planning a trip to New Zealand and want to do a bit of pre trip planning. I imagine they have a lot of guides/tours/maps that would accomplish much the same thing as this book without having to pack the book. I enjoyed the book thoroughly even though I'm not sure I'll ever make it to NZ. 2 of 2 people found the following review helpful. I like it. Stunning images of New Zealand By Customer I like it. Stunning images of New Zealand, info on why and what was shot on these amazing locations. This book pretty much is what you'd expect when you're interested in buying such a book. Beorn's house and the scenes around it were apparently set in a stunning area of the South Island called Paradise, to name but one example I encountered early in the book. 1 of 1 people found the following review helpful.
