**Raluca Lucia Cimpean : The JFK Image: Profiles in Docudrama (Film and History)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The JFK Image: Profiles in Docudrama (Film and History):

One of the most popular presidents of the twentieth century, John F. Kennedy has been the subject of countless books, documentaries, and portrayals both on television and in feature films. Whether depicting his exploits during World War II (PT-109), capturing crucial moments during his presidency (Thirteen Days), or providing a fictionalized account of his assassination (Executive Action), films continue to portray Kennedy and his legacy. In *The JFK Image: Profiles in Docudrama*, Raluca Lucia Cimpean examines John F. Kennedy's representations in motion pictures, focusing on how the late president's image has been constructed to keep the myths of the Kennedy era and Camelot alive. The volume explores those myths through docudramas, which combine the aesthetic and narrative codes of documentaries with those of fiction to portray the characters and events of the Kennedy era as classic battles between good and evil. Beginning with an examination of the docudrama and its uses, this book analyzes the Kennedy image with its focus on the New Frontier, Camelot, and revisionist approaches and then provides in-depth examinations of such films as *JFK*, *In the Line of Fire*, and *The Rat Pack*. Drawing on archival research and Kennedy letters only recently released to the public, *The JFK Image* will be of great interest to scholars of film and popular culture, as well as those working in political science, the culture of the 1960s, and, of course, Kennedy studies.
