Brian Pendreigh : The Legend of the Planet of the Apes: Or How Hollywood Turned Darwin Upside Down before purchasing it in order to gage whether or not it would be worth my time, and all praised The Legend of the Planet of the Apes: Or How Hollywood Turned Darwin Upside Down:

0 of 0 people found the following review helpful. great!By libraryladysusanreally enjoyed this book. guess i have read

too many POTA books, but i still learned a few new tidbits.0 of 0 people found the following review helpful.
Excellent.By Reviewer from TerraPossibly the best book ever written on the phenomenon of POTA, one of the enduring films series (and the start of the big film/tie in industry that exists today), this is a MUST for any Apes fan.5 of 5 people found the following review helpful. Go Ape Over This BookBy Jack BurgessThe Legend Of The Planet Of The Apes By Brian Pendreigh is righutup there with Eric Greene's Planet Of The Apes As American Myth,and almost quite ae scholarly. Pendreigh's book uncovers the REAL reason why Edward G. Robinson did not become Dr. Zaius. Moments of unintended humor, such as the author being shut out of Charleton Heston's limo pick up, due to the actor's need forleg room, with the author following behind the limo on foot.The small, yet interesting color photo section contained manybehind the scenes photographs I have never seen before. Forexample I have never seen a photograph of a miniature of Ape City. The wonderful thing about this book is that the authordid his homework by backing himself up with named sources. Mr.Pendreigh showed a real appreciation for his subject matter.This book is great for either the casual Apes fan or The Keeper's Of The Faith. Personally I could not put this book down. Thank you Brian, great work!

Planet of the Apes was a huge box-office success when it was first released in 1967, and it has grown in stature over the years. Award-winning film journalist Brian Pendreigh's book will cover the entire Planet of the Apes phenomenon, from the novel through to the newest reincarnation on film.

About the AuthorBrian Pendreigh was film correspondent of The Scotsman for ten years. He is now a freelance film journalist writing for the Sunday Times, Guardian and the Scottish press. His books include Mel Gibson and His Movies, Ewan McGregor and The Scot Pack. He has won the Ainsworth Film Journalist of the Year award twice, in 1995 and 1999.
