**Henry Jones Jr. : The Lost Journal of Indiana Jones** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Lost Journal of Indiana Jones:

It has wonderful images that were in the movies and some that I don't think were in the movies. It includes a photo of Indiana's dead mother, entries made by Short Round, and detailed illustrations and descriptions of all of the settings and artifacts in full color. They even explain why the cover and the pages don't look original. It really is a fantastic purchase, 100% worth the money. 1 of 1 people found the following review helpful.

Great Addition to Indiana Lore By F. Nava What an inventive product - a "journal" exploring the many adventures of Indiana Jones ranging from childhood ("Young Indiana Jones Chronicles") through the movies (ending with the recent "Kingdom of the Crystal Skull"). The journal was written by Indiana himself, containing many pictures, drawings, and notes on his exploits. (It is reminiscent of Henry Sr.'s Grail Diary in "The Last Crusade.") It goes chronologically through the series and was apparently "found" by the Russians. They provide many annotations, linking and explaining the details of certain entries, pictures, characters, and notes. This is a GREAT companion piece to the films. It is a little pricey for its contents, so I recommend looking around for cheaper price tags before purchasing it. If you can't find it cheaper, GET IT ANYWAY! I actually found my copy on . It came at the sales price of \$5 because it contained a publisher's mark - which was only a black marker line above the pages on the top of the book. A minor detail, because the book was still new and was \$20 off the original price of \$25. If you want to collect essential Indiana Jones memorabilia, then this is a must. If you are a passing fan, then it is still recommended because it has countless details for the average fan. 0 of 0 people found the following review helpful. so of course I loved it. By GrimRapier I'm a die hard Indy fan, so of course I loved it.

**URGENT! JUST RELEASED: THE LOST JOURNAL OF INDIANA JONES** The Federal Security Service of the Russian Federation is pleased to release one of its most prized holdings, the heretofore "lost" journal of Dr. Henry "Indiana" Jones, Jr., which was obscured within the KGB's collection for years before passing into the Russian Federation's possession. From Jones's notes on his youthful encounters with the likes of Lawrence of Arabia and Teddy Roosevelt, through his adulthood adventures with the Thuggee Cult, the Nazis, and the Kingdom of the Crystal Skull, this journal covers nearly fifty years in his life, spanning from 1908 to 1957. Dr. Jones's snapshots, sketches, press clippings, and entries recording his personal thoughts are all revealed in this volume, giving new insight into one of the most enigmatic adventurers of the twentieth century.

**About the Author** Dr Henry 'Indiana' Jones, Jr is an archaeologist who speaks twenty-seven languages and obtained his advanced degree in archaeology from the University of Chicago. He divides his time between classroom instruction at an Ivy League University and fieldwork involving the collection of rare antiquities.
