**Janine Pourroy : The Making of Waterworld** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Making of Waterworld:

A look at the new Universal Pictures film offers readers an insider's look at every stage of production, from the innovative set design, including a floating set built from 1,021 tons of steel, to wardrobe design to the filming of action scenes on unpredictable waters. Original. Movie tie-in.
