PierreI love books on horror related subjects this one had a nice price attached to it. The book covers nothing new on the genre just a-z on slasher movies with info on the movie such as cast, time, etc. The entries are good but most fans will not find anything new. I did find it annoying they took a caption from the summary and put it in the center of it. Other than that, it's a decent book for the price but nothing that'll blow your socks off.0 of 1 people found the following review helpful. Five StarsBy Mummsyloved it
