you like sudoku and word games, you'll get hooked on wordoku. Frank Longo is the best, anything else doesn't quite measure up.

Heres more fun for wordoku lovers: a third Official puzzle collection! And this time, there's something new: several 10x10 puzzles to go along with the 9x9s and 12x12s. Wordoku follows the same basic principles as sudoku, except that solvers fill the grid with letters. Under each grid, the letters for that puzzle appear, in a pronounceable anagram. Then, just like the original, you arrange them so that every letter appears in every column, every row, and every box just one time. Unlike sudoku, the fun doesn't end there, because the answer to the anagram lies buried inside the grid. But beware: in some cases the anagram actually has more than one possible solution!
