One of our greatest critics interviews one of our greatest directors By Jim Hemphill Comprehensive, fascinating production history and analysis via one of our greatest critics interviewing one of our greatest directors, with tons of incredible art and documentation. One of the best books on a director I've ever read - if not THE best. 0 of 0 people found the following review helpful. If you love/like Oliver Stone this is a MUST BUY. By R. A. Bishop III wish there were books this in depth about more directors. I've always like Oliver Stone, but he'd fallen off my radar until I heard an interview on the podcast Filmspotting with Matt Zoller Seitz. That led me to blind-buy The Oliver Stone Experience. Best blind-buy ever. It is an amazing dive into the mind of Oliver Stone, the time periods the movies were released, and the way they affected popular culture in their time. So much information (photos, essays, excerpts, reviews, etc.) that there is no way you will be disappointed. I love the movies and this is the pinnacle of books about directors. 11 of 1 people found the following review helpful. The best examination of his work since James Riordan's biography some ... By Benny Max Essential for Stone fans. Magnificent.

The best examination of his work since James Riordan's biography some years back...

Stone himself serves as guide to this no-holds-barred retrospective an extremely candid and comprehensive monograph of the renowned and controversial writer, director, and cinematic historian in interview form. Over the course of five years, Academy Award-winning filmmaker Oliver Stone (Midnight Express, Scarface, Platoon, JFK, Natural Born Killers, Snowden) and New York Times bestselling author Matt Zoller Seitz (The Wes Anderson Collection) discussed, debated, and deconstructed the arc of Stone's outspoken, controversial life and career with extraordinary candor. This book collects those conversations for the first time, including anecdotes about Stone's childhood, Vietnam, his struggles with post-traumatic stress disorder, and his continual struggle to reinvent himself as an artist. Their dialogue is illustrated by hundreds of never-before-seen photographs and documents from Stone's personal archive, dating back to Stone's birth: personal snapshots, private correspondence, annotated script pages and storyboards, behind-the-scenes photography, and production files from all of his films to date through 2016's Snowden, and including Stone's epic Showtime mini-series Untold History of the United States. Critical commentary from Seitz on each of Stone's films is joined by original essays from filmmaker Ramin Bahrani; writer, editor, and educator Kiese Laymon; writer and actor Jim Beaver; and film critics Walter Chaw, Michael Guarnieri, Kim Morgan, and Alissa Wilkinson.

"...its the must-have movie book of the fall...Its a film school in book form enlightening, entertaining, and essential."
