By albionphoto I wonder what the staff at Brady Games thought when they first played "The Order: 1886"? Probab;y a great sense of foreboding. The book does a good job of describing the weapons, characters, maps and tricks necessary for getting as much fun out of this game as possible. The book is more fun than the game which is a testament to Brady Games and Rick Barba. 1 of 1 people found the following review helpful. I would play the game first before you buy a guide. By Tim Case Not necessary for completing the game but should help out a little. Did not realize how short and linear the game was when I ordered this. 1 of 1 people found the following review helpful. Not the Best Brady Games Guide. By H. Ansari Usually Brady Games guides are great, but this one was passable. There were a few sections where the advice wasn't really helpful, like on the bridge sequence. I was better off just using my common sense.
