Even Stumped Me! :)By Polly WeifenbachI have been a long time fan of the Osmond family and thought I knew quite a bit, but this book even had me stumped more than once! Cathy, great job putting this together! I even appreciated the Discography (happily still being added to) and Marie's dolls (there are always new dolls as well, so it's nowhere near complete) sections which I found handy to have. Great pictures too! You know? This book is great to have along at Osmond fan gatherings (yes, I've done it and we had fun going through the book together) to test each other's Osmond knowledge... you can use it to play different trivia based games.1 of 1 people found the following review helpful.
