**John Ardoin : The Philadelphia Orchestra: A Century of Music** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Philadelphia Orchestra: A Century of Music:

0 of 0 people found the following review helpful. Five StarsBy classicalmusicloverIf there is a book of Phily Orchestra, this is IT! Thank you, reading it daily these days.1 of 2 people found the following review helpful. what a bookBy Joe MurrayWhat a book -- I bought this used on , and I would have bought it new years ago had I known what a fine book it is. As a former Philadelphian (but always a Philadelphian at heart), I must tell you that the story of this world-regarded orchestra is one worth reading. I never quite appreciated what a treasure I had on Broad Street when I would spend a grand sum of \$4 for an ampitheater seat at the old Academy for a Friday or Saturday concert.

This volume celebrates the 100th anniversary of the Philadelphia Orchestra. It describes some its most reknowned musical directors such as Stotowski and Muti, and introduces the musicians and supporters who make it possible, as well as examining the orchestra's educational programmes.

"The Philadelphia Orchestra's list of conductors and soloists for the last century reads like a book on the history of music...there has not been a great name in music over the last hundred years who has not appeared with the Philadelphia Orchestra."-James Galway "The Philadelphia Orchestra continues to be a gleaming jewel in the musical crown of America."-Isaac Stern
