**Lovebook : The Quiz Book for Couples** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Quiz Book for Couples:

What I thought would be a corny idea turned into possibly the best at home date we've ever had.The first round of questioning was pretty serious, and the second round was as well. But after a few rounds of the questions, we started to get creative, open up, and have a great time.I would recommend this to any couple, together a week or 10

years. It is a great time if you go into it with an open mind and let yourself enjoy it. 4 of 4 people found the following review helpful. This is sweet. It's not very long. By C. O'Connor This is sweet. It's not very long, you could finish the whole thing in a day if you wanted. We were taking them in between rounds of a board game over a weekend and finished pretty much the whole thing. A lot of the questions are VERY obvious/pointless but some of them are more probing. We did learn a few new things about the other which was kind of the point of this. :) Be prepared to skip a bunch of questions, ha. I can't see anyone actually answering "What is the one thing you would fix about your partner's appearance" or "Who do you think is the better catch?" It's a trap! Haha. Can you imagine answering those honestly?! Some of the quizzes are extremely short, like 5-6 questions which is too fast. About half are 15 questions which I think is the perfect length. Overall, good purchase. 6 of 6 people found the following review helpful. We had fun talking about these questions over drinks. By F. Kalker Bought this for my hubby for our anniversary. As soon as he opened it he wanted to start playing the game. We had fun talking about these questions over drinks. Just the two of us! A lot of laughs.
