GrauerStudying the full orchestral score is a struggle as one needs to adjust for so many transpositions. By comparison, studying this four-hand piano score is a snap -- finally I'm able to delve more easily into Stravinsky's many secrets. Fascinating and very rewarding.I wonder, though, whether Stravinsky is actually the one who produced this, because many of the spellings are really odd. For example, we often find what amounts to a C major chord spelled for no good reason with an F flat rather than an E. In other cases I've found double flats and double sharps used arbitrarily, with no good reason for not spelling the notes in the usual way. An inexperienced copyist might have come up with such spellings when transposing from the orchestral score, but it's hard to imagine why Stravinsky would have used such odd, counter-intuitive spellings.0 of 0 people found the following review helpful. Pianists loved thisBy Brian C in TexasThis was for a Christmas present for pianist friends - and they love it. Nice to have music printed at a good size and clearly done.0 of 0 people found the following review helpful. Five StarsBy William ZeitlerUsual Dover

quality. Comparing Stravinsky's own four-hand reduction to the orchestra score is fascinating!
