1 of 1 people found the following review helpful. A good read By judy This was a good book but a little too involved for me. 6 of 7 people found the following review helpful. Understanding the make-up of the roulette wheel By GeminiMack This book teaches you to understand the make up of the American Roulette wheel. It gives very few guidelines as to how to predict the winning number. It is recommended for the curious researcher of mathematically based games, but I would say not for the serious player who wants to make money out of the roulette wheel. 1 of 3 people found the following review helpful. great read By Paul It was a great it shows alot when getting ready for vegas I wish I had the book a few years ago.....

Includes ingenious layout strategies using six-pack concepts, elusive formulas for arranging the numbers on the wheel,

secret formulas for predicting the exact number, tracking ball movements.
