**Ludwig van Beethoven : The Ruins of Athens and Other Great Overtures in Full Score** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ruins of Athens and Other Great Overtures in Full Score:

Written as preludes to other works, these masterpieces nevertheless stand alone as examples of the inventive power, mastery, and intensity characteristic of Beethovens work. In addition to the overture and "Turkish March" from the title piece, this rich collection includes overtures from The Creatures of Prometheus, Namensfeier ("Festival"), King Stephen, and Consecration of the House.

About the AuthorThe triumphant genius of Ludwig van Beethoven (1770-1827) casts a long shadow over classical music; no other composer of the past two centuries has exercised an influence more profound than his. A product of the classicist generation, he was the first of the Romantics, and his exhilarating works remain undiminished in their powers of enchantment.
