**John Reed : The Schubert song companion** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Schubert song companion:

30 of 30 people found the following review helpful. Classical Singer Handbook to SchubertBy Jason MastrogiovanniJohn Reed's Schubert Song Companion provides clear and literal translations to the more than 600 known Schubert lieder. Reed also includes musical analyzizations and historical information about each song. This book is perfect for anyone from the Schubert scholar to the curious listener. Definitely a must for any Schubert singer!3 of 3 people found the following review helpful. Comprehensive guideBy J. MatsonFor those interested in

Schubert's songs, Reed's book is a must have. He provides short commentary to all the songs (organized alphabetically) and references to commentaries in the other major Schubert song reference books. There are also sections about tonality and other topics near the end. 9 of 10 people found the following review helpful. English Translations Only, No Original Texts By JB in Maryland Overall a useful compendium and listener's companion, with historic and interpretive notes on each of Schubert's 600+ Lieder. Potential buyers should be forewarned, however, that song texts are only offered in English translations not their (usually) German originals. Doubtless this choice was made to limit the size of the book, but it also prevents it from being quite as helpful a guide as it might have been.

This reference book provides an encyclopaedic guide to every song by Schubert for solo voice and piano, 600 in all, including different versions, unfinished songs and variants.
