From Tyndale House Publishers : The Screwtape Letters: First Ever Full-cast Dramatization of the Diabolical Classic (Radio Theatre) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Screwtape Letters: First Ever Full-cast Dramatization of the Diabolical Classic (Radio Theatre):

1 of 1 people found the following review helpful. This Dramatization of the Screwtape Letters is BrilliantBy kidsathartThis dramatization of The Screwtape Letters is brilliant. Andy Serkis, known for the voice of Gollum in The Lord of the Rings, plays the voice of Screwtape. The original story, written by the noted theologian C.S. Lewis, is about a senior demon, Screwtape, who writes instructional letters to his nephew, Wormwood, in order to teach him how to keep his "human" from joining the ranks of God's elect, and then later, to lure him into temptation. The characters are fascinating and the plot interesting. This dramatization will keep you glued to your seat and begging for more.1 of 1 people found the following review helpful. Brilliant!!!!By ShanocoLet me keep this simple:I have always loved the writings of C.S. Lewis and so I jumped to the opportunity to purchase this work. Andy Serkis is just a brilliant actor and the other actors play off each other very well. I think this work is very dark, as it should be as it highlights the work of Satan and his minions as they seek to distract and ultimately destroy the work and God who in their mind is seen as the enemy. You have to listen keenly as the twists and turns come and go. I caution letting children listen though. If so, parental discretion is recommended because it can get really eerie. However, this is a great work. Listening is easy both for voice and songs. Very nostalgic. Well done. Six stars if that were possible.0 of 0 people found the following review helpful. when good becomes evil in life's spiritual chain of eventsBy inmyopinionThe actors' voices were tremendous! Thanks for the highest quality!So worth the purchase. We listen while on our travels! and we were challenged by the "reverse thinking" of what constitutes good or evil.We have listened multiple times and have reflected and conversed deeply.

From the award-winning audio drama team that brought you Radio Theatres Amazing Grace and The Chronicles of Narnia. In his enduringly popular masterpiece The Screwtape Letters, C. S. Lewis re-imagines Hell as a gruesome bureaucracy. With spiritual insight and wry wit, Lewis suggests that demons, laboring in a vast enterprise, have horribly recognizable human attributes: competition, greed, and totalitarian punishment. Avoiding their own painful torture as well as a desire to dominate are what drive demons to torment their patients. The style and unique dark humor of The Screwtape Letters are retained in this full-cast dramatization, as is the original setting of London during World War II. The story is carried by the senior demon Screwtape played magnificently by award-winning actor Andy Serkis (Gollum in Lord of the Rings) as he shares correspondence to his apprentice demon Wormwood. All 31 letters lead into dramatic scenes, set in either Hell or the real world with humansaka the patient, as the demons sayalong with his circle of friends and family. This Radio Theatre release also stars Geoffrey Palmer (Tomorrow Never Dies), Laura Michelle Kelly (Sweeney Todd), Eileen Page (The Secret Garden), and other world-class actors. Includes 10 new songs inspired by the classic book, four behind-the-scenes video documentary featurettes, and a 5.1 surround sound mix. Four CDs, approx. 4 hours total.

From AudioFileMaster demon Screwtape, played by a marvelously diabolic Andy Serkis, can sound sympathetic, urbane, and ruthless (like the best of devils) all in a single breath when he offers a little advice to his nephew, Wormwood, regarding the temptation, persecution, and ultimate destruction of the human soul. In this clear and well-crafted dramatization of C.S. Lewis's 31 satirical letters, both story and moral journey are accentuated by the wonderful acting chemistry between Serkis, who voiced Gollum in THE LORD OF THE RINGS, and Bertie Carvel's deftly understated Wormwood. A superb supporting cast, sound effects, and music that re-creates the ambiance and gravitas of Lewis's war-torn 1940s England round out this intelligent production. This is audio theater at its best. B.P. Winner of AudioFile Earphones Award AudioFile 2009, Portland, Maine
