Lillian Beckwith : The Sea for Breakfast before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sea for Breakfast:

0 of 0 people found the following review helpful. EnjoyableBy Caroline walker GibsonWonderful book to pick up and be absorbed in the day to day adventures of the Folks Lillian Beckwith created.5 of 5 people found the following review helpful. The first book I readBy Hiker MamaThis was the first book I read by Lillian Beckwith but far, far from the last. A dozen books later, and many re-reads, I am a commited life-time fan. Her ability to relate a story is genius and no matter what the topic or situation it bursts with life and humor. You'll love all the characters and marvel at the sheer durability of the Croft people. Give as a gift to anybody in the dull-drums and read for lift of your own spirits. It' better than any pill out there!2 of 2 people found the following review helpful. More Good BeckwithBy Scott C AkersJust one more in my collection of Beckwiths. I first encountered these books as a kid (more years ago than I care to remember). Like all her semifictional books on her time in the Hebrides, it combines a lot of funny with a little sad. A good mix.
