5 of 5 people found the following review helpful. Neat little tidbits and little known factsBy LitGirl123I have been very pleased with this purchase. I ordered it and received it within a week. The book itself is small and in hardcover.

The jacket is quaint. I have very much enjoyed it's content. It is a collection of tidbits, trivia, and quotes about Shakespeare. This is a book you can dip into in any spot. Its a good one to peruse while waiting in the doctors office or wherever, because it is so easily put down and picked up again. It also has a ribbon marker, and it is indexed for quick referencing. I am one hundred percent pleased with it!1 of 1 people found the following review helpful.
