before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Singer's Musical Theatre Anthology: Soprano - Volume 6 Smta (Vocal Collection):

The collection is good however, the songs are almost exclusively for the older MT singer; heroines who have adult children. So, in my opinion, this volume 6 is not a good anthology for teens or young adults because of the age and theme challenges inherent in the songs.

By Victoria Stinnett
This is a great collection of songs. A few standards and some rarer songs that I had never heard of before, but I am glad I got introduced to them. I have a large collection of these anthologies that I buy to be able to use for auditions for shows, however, I am finding that these books don't serve that purpose for me. Most of these songs are way too hard for a piano player to play at an audition. No one in there right mind would go to an audition and hand the pianist a song with 6 sharps, 4 key changes, and frequent meter changes. There is one song that goes from 7/8 time to 3/4, to 5/4 time all in one line of music! Unless the accompanist is very familiar with the song it is unlikely they would be able to sight read a song like that. Some of the songs are very long too- like 15 pages. Also not good for auditions. And probably too long to be sung anywhere except if you are actually in the show. There are a few songs that would work-usually the older Rodgers and Hammerstein material that would be appropriate for auditions but there isn't much of that. So all in all, a solid book with some great songs, but beware of buying if you goal is to gather material for your auditions.
