large collection of songs overall I just feel it lacks diversity from other editions. I own a couple other Musical Theatre Anthology books and this is basically a regurgitation of those with one or two new songs added in. If you already have other editions dont spend your money on this one. If you dont own any other editions give this one a try.0 of 0 people found the following review helpful. Great selection for young singersBy J. J. LowreyThis is a great set of songs for a young singer to work on. I was very pleased with the variety.
